PREFACE

This directory has been compiled for the benefit of those individuals working in or supporting the forest products industry in Montana, and lists 241 sawmills, seventy-nine post and pole processors, nine plywood and particleboard processors, one pulp mill, twenty-five log home manufacturers, 633 loggers and eight secondary manufacturers. The section Primary Wood Processors is included to aid in locating individuals or companies also listed under Sawmills, Post and Pole Processors, Plywood and Particleboard Processors, Pulp Mills, and Log Home Manufacturers.

Because of the great number of companies and individuals involved in the forest products industry in Montana, and the industry's constant change, this directory may inadvertently omit some forest product processors and list others no longer in business. The Forestry Division of the Department of Natural Resources and Conservation (DNRC) would appreciate hearing from individuals and companies that this directory omits or lists incorrectly. Please address all correspondence to:
